BEL Valves appoints a new Area Sales Manager for Scotland (Aberdeen)

BEL Valves has appointed a new Area Sales Manager to be located in Aberdeen.

BEL Valves is pleased to announce the appointment of Peter Robertshaw to the position of Area Sales Manager for Scotland, taking over this important role from Gordon Affleck. Gordon is relocating to Perth to become the new BEL Valves Area Sales Manager for Australia. Peter's remit is to further develop BEL Valves' already significant presence in the UK North Sea for Surface and Subsea valves.

Peter has more than 20 years' experience in customer-facing roles in the valve industry, as well as extensive knowledge of the Oil & Gas markets in the UK North Sea.

Prior to joining BEL Valves, Peter was Technical Sales Co-ordinator for PetrolValves (GB) Ltd. Peter has also worked for L & N (Scotland) Ltd, Pibiviesse(UK) Ltd (Transmark) and Pegler & Loudon.

About BEL Valves

BEL Valves manufactures Valves, Actuators and Controls for the Oil and Gas industry, with a focus on high pressure and high integrity applications. Bespoke products and services meet exacting practices, stringent fugitive emissions criteria and all main industry codes and standards - in bore sizes from ½” to 42”, pressures up to 16,500psi, water depths to 3000 metres and in a range of materials for sweet or sour service - suitable for High Pressures and High Temperatures.

Valve configurations include on-off, Surface and Subsea, Through Conduit Slab and Expanding Gate, High-Integrity Ball, Globe and Check Valves and an Eccentric Ball Valve (E-Ball). The Subsea range includes Small Bore Gate, Check, Needle and Rotary Disc Valves.

BEL Valves has its own range of Pneumatic and Hydraulic Actuators, and offers a complete Safety Instrumented Solution to HIPPS (High Integrity Pressure Protection System).

BEL Valves' integrated production facility offers a full range of services (Design, Manufacturing, Testing, and After-market). A high reliability supplier, the company offers more than 50 years experience in valve engineering and manufacturing, Open Contracting Policies and Superior Management Tools; and has delivered product-engineering solutions (with full third party approvals) for major projects worldwide with operators like Shell, BP, Total, AGIP, Chevron and Exxon Mobil.
